FOREMAN

Carpentry – General Construction – Quality Control Management – Project Management Certificate

Results-oriented, skilled Professional with a solid supervisory background and experience working on projects in the United States and overseas. Background includes completing assignments in challenging environments, including areas of civil unrest, those with semi-skilled labor, and during supply shortages. Private sector experience in industrial/commercial and large, multi-unit residential projects; military experience includes seismic retrofits, modernization, and resident improvements. Technically proficient with PCs and peripherals. Physically fit to meet the demands of construction. Willing to relocate and free to travel; single with no dependents; holds a valid US Passport.

CAREER ACCOMPLISHMENTS

- Served as the Assistant Quality Control Manager on a \$14 million US Navy modernization project.
- Trained and experienced in industrial hygiene/safety, security, and as an Emergency Med Tech/Firefighter/Hazmat Response Technician.
- Hold a Class A Commercial Driver's License with T and X endorsements; possess clear driving record for well over ten years.
- Successfully worked with US citizens and foreign nationals; British West Indies indigenous workers; Bosnian governmental officials, Serb, Muslim, Croat, workers, and firefighters in Bosnia-Herzegovina; and Marshallese workers in The Republic of The Marshall Islands.
- Provided emergency response for Bosnian civilian population; liaised with local officials, UNPROFOR and UNHCR personnel.
- Possesses current First Aid and CPR certifications.

PROFESSIONAL EXPERIENCE

Construction (US)

- Reads and follows structural plans to layout or check layout of sites and structures of varying sizes and functions.
- Laid out, formed, shored/poured foundations, structures, and flatwork.
- Framed with wood and metal, including structural steel members.
- Hung and finished dry-wall and related wall/ceiling systems.
- Performed exterior/interior finish carpentry that included door hanging and cabinet installation.
- Uses various instruments to check grade, line, and other measurements.
- Operates light to medium construction equipment.
- Experienced in driving trucks in OTR, construction, and oil/gas field operations.
- Provided safety, industrial hygiene, and emergency response at the Generation and Transmission Power Plant.

Construction (Overseas)

- Refurbished burned-out structure into United National Fire/EMS Station #1 in Sarajevo.
- Repaired a concrete roof structure that took an artillery hit in Sarajevo; prepared living quarters for Med Tech/Firefighters.
- Worked on a challenging West Indies project with semi-skilled local labor and a shortage of supplies.
